

STUDENT NAME CHANGE

In support of Wilkes University's commitment to provide an equitable and safe experience for students whose birth name and/or legal name does not reflect their gender identity or expression, Wilkes accepts requests from such students to use a chosen first and/or middle name on certain University records. A student's chosen name will be used where feasible in all University systems.

To start the process of requesting a name and/or gender marker change, visit the Registrar's Office (or website) or the Title IX Office (or website) to obtain the Name Change Request Form.

For questions or to discuss the process, students may contact:

HOUSING

Wilkes University's housing application invites students to include a chosen name and how they identify. Additionally, transgender students will have the option to take an active role in choosing an appropriate on-campus housing assignment that corresponds with their gender identity. Wilkes has a wide variety of housing options and can also offer a single room to any student who wishes to have more privacy. Residence Life will make every effort to provide the most appropriate on-campus housing assignment for every student.

SAFE SPACE

safespace@wilkes.edu
wilkes.edu/safespace

The Safe Space program provides education on concerns, support, terminology, and resources for the LGBTQIAP+ community. The

visibility of the safe space sticker allows the campus community to identify supportive faculty, staff, and students who have been through the Safe Space program, which allows students on campus to know that they can speak freely with these individuals about LGBTQIAP+ issues. It also creates a network of Allies to advocate for LGBTQIAP+ inclusion and equity.
