The Passan School of Nursing Faculty reserves the right to revise the Graduate Nursing Program requirements and policies as deemed necessary at any time to prepare students for new and emerging roles in nursing.

Policies of the Passan School of Nursing graduate nursing program may be more stringent than other graduate programs. The Passan School of Nursing Graduate Program Student Handbook details these policies and is available at Nursing Graduate Student Handbook.

State Requirements for Online/Distance education

Authorization requirements for distance education vary by state. Wilkes University is currently in the process of pursuing individual state authorizations and approvals, as necessary, for its online course delivery. Wilkes is not required to have state authorization in all 50 states and may choose not to enroll students from states where we are not authorized. Any questions related to the university's approval to offer graduate education programs in a specific state should be forwarded to our Graduate Admissions team. Please note: Since distance education requirements vary by state, distance education students who change their residency to a state in which Wilkes University is not approved to operate may be unable to remain enrolled at Wilkes University or may have their academic progression delayed until proper approvals may be obtained.

Further details can be obtained at http://www.wilkes.edu/about-wilkes/accreditation-and-rankings/state-authorization-and-registration.aspx

FEES*

Additional fees exist for software products employed in graduate nursing programs, which promote student achievement of course outcomes in the distance education environment.
*Fees are subject to change.

ADULT-GERONTOLOGY
PRIMARY CARE NURSE PRACTITIONER

Nurse Practitioner Student Learning Outcomes

Students in the Nurse Practitioner Program at Wilkes University will:

1. Synthesize theoretical, scientific, and clinical knowledge in providing comprehensive, evidence-based care.
2. Perform comprehensive health history and physical examination to diagnose health conditions involving critical analysis, differential diagnosis, and data interpretation.
3. Assume leadership roles in collaboration with other health professionals to achieve optimum patient health.
4. Integrate health care policy as it impacts the decision-making ability to provide quality patient care.
5. Negotiate healthcare delivery systems to promote quality health outcomes for individuals, communities, and organizational systems.
6. Coordinate care for patients with complex conditions through referrals and collaboration.
7. Participate in life-long learning through higher education, continuing education, certification and evaluation.

Nursing...........................................................................................................................................16
DOCTOR OF PHILOSOPHY IN NURSING (PH.D.)

Requirements
Nursing.................................................................16
DOCTOR OF NURSING PRACTICE (DNP)

Doctor of Nursing Practice (DNP)

Purpose

The distance education program leading to the Doctor of Nursing Practice degree at Wilkes University is linked to the mission statements of the University and the Passan School of Nursing as well as, AACN’s definition of advanced nursing practice. The doctoral program focuses on two primary elements: applied research and clinical practice. These two elements are embedded in courses throughout the program with opportunities to apply acquired knowledge to clinical practice in the students’ respective fields for improving safety and quality in health care organizations.

DNP Program Outcomes

The DNP Program at Wilkes University prepares students to:

1. Apply scientific inquiry and information technology to become leaders in advancing nursing practice.
2. Demonstrate application of scholarship and research for solving the nation’s complex health problems.
3. Translate evidence based research into clinical practice.
4. Integrate and disseminate knowledge for improving patient and population health outcomes.
5. Engage in health care policy.

DNP Student Learning Outcomes

Students in the DNP Program at Wilkes University will:

1. Synthesize nursing science to manage complex health problems and improve health outcomes in advanced nursing practice.
2. Develop and evaluate knowledge and skills in organizational and systems leadership to improve health care practice and policy.
3. Critically analyze information technology, research methodology, quality improvement methodology to implement the best evidence based practice.
4. Design and analyze patient care technology and information systems to enhance quality of health care delivery.
5. Evaluate health care policies to improve health care policy outcomes at the local, state, and national levels.
6. Employ specialized knowledge and leadership skills when collaborating and leading other interprofessional health care teams in complex health care delivery systems.
7. Analyze health disparities, cultural diversity, environmental and societal needs in the care of individuals, aggregates, and populations.
8. Develop, demonstrate, and sustain advanced levels of clinical judgment, systems thinking and accountability to implement and evaluate evidence based care disparities, cultural diversity, environmental and societal needs in the care of individuals, aggregates, and populations.

Admission Requirements

Regular Acceptance

- Master of Science in Nursing degree - advanced practice registered nurse (APRN), nurse executive, nursing informatics, clinical nurse leader, or health policy concentrations only
- GPA of 3.5 or higher from master’s-degree-granting institution which is programmatically (ACEN, NLNAC, CCNE) accredited. Students who have graduated from a non-programmatically accredited institution and meet all other admission requirements will be evaluated on a case by case basis. Admission is not guaranteed.
- RN license; and advanced practice registered nurse (APRN) license and national board certification, as appropriate
- Completed application and CV
- Proof of completion of supervised clinical practice hours during master’s or post-graduate certificate program. Verification of completed hours must be provided by the nursing program where the clinical hours were completed. Transcripts are not considered official verification and will not be accepted as verification. (Please note: The DNP degree requires completion of a total of 1000 clinical hours earned during master’s/post-graduate certificate, and the DNP program)
- Two recommendations from graduate-prepared nurses or faculty who can attest to the candidate’s potential for advanced practice studies and leadership
- Official transcripts from master’s degree and post-graduate certificate granting institutions
- Evidence of completion for advanced health assessment, advanced pharmacology, and advanced pathophysiology by APRN students (Nurse Practitioners, Clinical Nurse Specialists, Nurse Anesthetists and Nurse Midwives) who do not hold current national certification

Conditional Acceptance (academic)**

- Master of Science in Nursing degree - advanced practice registered nurse (APRN), nurse executive, nursing informatics, clinical nurse leader, or health policy concentrations only

Conditional Acceptance (collateral)*

- Master of Science in Nursing degree - advanced practice registered nurse (APRN), nurse executive, nursing informatics, clinical nurse leader, or health policy concentrations only
- GPA of 3.5 or higher from master’s-degree-granting institution which is programmatically (ACEN, NLNAC, CCNE) accredited. Students who have graduated from a non-programmatically accredited institution and meet all other admission requirements will be evaluated on a case by case basis. Admission is not guaranteed.
- RN license; and advanced practice registered nurse (APRN) license and national board certification, as appropriate
- Completed application and CV
- Evidence of completion for advanced health assessment, advanced pharmacology, and advanced pathophysiology by APRN students (Nurse Practitioners, Clinical Nurse Specialists, Nurse Anesthetists and Nurse Midwives) who do not hold current national certification

*Official transcript from degree-granting institution due prior to start of second course

**Admission is not guaranteed
**Admitted students must achieve a cumulative 3.0 GPA in first two courses to move forward in program of study.**

*NSG 608a and b are completed over the last 2 courses in the DNP program.*

Elective practicum courses are available for students entering the MS-DNP program with less than 400 hours from their master’s degree and post grad certificate programs. These courses provide students with additional time to complete the required 1000 hours for the DNP degree, prior to the start of

### Degree Requirements

MS-DNP students are required to complete the 30 (30) credit DNP core.

### Length of DNP Program

DNP program offers courses consecutively over 8 weeks with two, 2 week breaks built into the academic calendar.

### Clinical Requirements

Students in the DNP program need to secure a clinical mentor prior to entering NSG 608a: Scholarly Project. The DNP program requires completion of a total of 1000 hours of practice experience beyond the bachelor's level of nursing education. The hours will be conducted in the scholarly project courses. Students who have completed practicum hours to satisfy past curriculum requirements may be credited with hours from their master's program and/or post master's graduate/ APRN certificate in nursing. Validation of those hours is required by a letter from the degree granting academic institution verifying the number of practicum hours which is part of the enrollment process. Further details of clinical requirements are outlined in the graduate student nursing handbook.

### Scholarly Project

Students in the graduate program are required to complete a scholarly project that demonstrates mastery of theoretical content through analysis and synthesis. Students should have a topic prior to entering the program and will research the topic throughout their DNP coursework. DNP scholarly project oversight is provided by an assigned Scholarly Project Chairperson. One other committee member is chosen by the student to serve as a reader and can include graduate faculty members or community members, who are serving as scholarly project mentors. The scholarly project validates that candidates have achieved competency in The Essentials of Doctoral Education for Advanced Nursing Practice (AACN, 2006) through the application of research and clinical implementation. The Scholarly Project is 6 credits and completion is over the last 2 courses of the DNP program.

Nursing.........................................................................................................16
MASTER OF SCIENCE IN NURSING

MASTER OF SCIENCE IN NURSING (MSN)

Purpose
The purpose of the distance education Master of Science in Nursing at Wilkes University is to prepare the Nurse Practitioner, Nurse Executive, Nursing Educator, and Informatics Nurse Specialist for advancing nursing practice. The demand is growing for master's degree nurses who are innovative and clinically focused. This multidisciplinary program provides a foundation for further study in nursing and continued professional development. Graduates are eligible for national certification in their respective concentration.

Master of Science in Nursing Program Outcomes
The Master of Science in Nursing program at Wilkes University prepares students to:

1. Engage in lifelong learning in a constantly evolving and multicultural world.
2. Demonstrate competence in the development of scientific inquiry relevant to clinical practice, administration, or education.
3. Utilize leadership strategies that foster improvement of patient and population health.
4. Advance nursing practice by translating evidence in a variety of roles and areas of practice.
5. Improve healthcare outcomes through interprofessional collaboration.
6. Participate in lifelong learning as a part of advancing nursing practice.

Master of Science in Nursing Student Learning Outcomes
Students in the Master of Science in Nursing program at Wilkes University will:

1. Synthesize advanced knowledge of nursing and related disciplines for the development of advanced nursing practice in the roles of the Nurse Practitioner, Nurse Executive, and Nurse Educator.
2. Develop expertise in the Nurse Practitioner, Nurse Executive, and Nurse Educator role to advance nursing practice.
3. Develop skills and abilities to assume leadership roles in advanced nursing practice.
4. Evaluate nursing research for its applicability to advance nursing practice.
5. Evaluate applicable knowledge and concepts in nursing to deal with the complexities of a dynamic society.

Admission Requirements
Regular Acceptance

- GPA of 3.0 or higher from an associate's- (for RN to MSN program) or baccalaureate- (for full MSN program) degree-granting institution which is programmatically (ACEN, NLNAC, CCNE) accredited. Students who have graduated from a non-programmatically accredited institution and meet all other admission requirements will be evaluated on a case by case basis. Admission is not guaranteed.
- RN License
- Completed application
- Resume
- Minimum one year of clinical experience
- Official transcripts from degree-granting institution.

Provisional Acceptance (collateral) *

- GPA of 3.0 or higher from an associate's- (for RN to MSN program) or baccalaureate- (for full MSN program) degree-granting institution which is programmatically (ACEN, NLNAC, CCNE) accredited. Students who have graduated from a non-programmatically accredited institution and meet all other admission requirements will be evaluated on a case by case basis. Admission is not guaranteed.
- RN License
- Completed application
- Resume
- Minimum one year of clinical experience
- Unofficial transcript from degree-granting institution*.

*Official transcripts from degree-granting institution due prior to start of second course

Conditional Acceptance (academic) ** (NP students are not admitted under conditional acceptance)

- GPA between 2.5-2.99 from an associate's- (for RN to MSN program) or baccalaureate- (for full MSN program) degree-granting institution which is programmatically (ACEN, NLNAC, CCNE) accredited. Students who have graduated from a non-programmatically accredited institution and meet all other admission requirements will be evaluated on a case by case basis. Admission is not guaranteed.
- RN License
- Completed application
- Minimum one year of clinical experience
- Resume
- Official transcripts from degree-granting institution.
- Letter of Intent (must include reason for pursuing MSN degree and reason GPA is less than 3.0)
- Two letters of recommendation (letters of recommendation must be from supervisors and/or those who can attest to candidate's ability to be successful in graduate nursing education)

** Admitted students must achieve a cumulative 3.0 GPA in first two courses to move forward in program of study.

The Curriculum

Graduate Nursing Core (24 Credits).

MSN students complete the 24 credit core in addition to credits of their chosen concentration.

Nurse Executive (15 Credits)

Total: 39 credits

Students in the Nurse Executive program at Wilkes University will:

1. Examine innovations for leadership and management to meet the challenges in delivering quality health care.
2. Critically analyze the challenges and issues facing nurse executives for maintaining healthcare workforces.
3. Discuss the role of the nurse executive as a leader in advancing nursing practice.
4. Apply evidence based practice as an organizational leader in redesigning healthcare delivery systems.

Nurse Executive (15 Credits)*
*Theory courses are 8 weeks and practicum courses are 16 weeks in length.

Length of Program
The total number of credits to complete the Master of Science in Nursing program varies depending on the chosen program concentration. See the individual program descriptions for the specific credit requirements of each graduate nursing concentration.

Courses for the Nurse Practitioner program are 12 weeks in length. The Nurse Executive sequence is 8 week theory courses and 16 week practicum courses. The Nursing Education and Nursing Informatics sequences are 8 week courses.

RESIDENCY REQUIREMENTS
An on-site residency is required for nurse practitioner students only, who are enrolled in NSG 500, Advanced Health Assessment, in order to demonstrate advanced physical assessment skills. In addition, nurse practitioner students in the following clinical courses may be required to complete an on-site residency, based upon the location of the clinical practice site. During residency, direct supervision and evaluation of the student will be completed by nurse practitioner clinical faculty at his/her designated clinical practice sites. Each course syllabus dictates the terms of the specific course residency.

- NSG 506 – Advanced Practice in Adult-Gerontology Clinical I
- NSG 515 – Advanced Practice in Adult-Gerontology Clinical II
- NSG 535 – Advanced Practice in Psychiatric/Mental Health Nursing I
- NSG 536 – Advanced Practice in Psychiatric/Mental Health Nursing II

Clinical Requirements
The student is responsible for arranging all clinical experiences. A preceptor from a practice setting that promotes attainment of course objectives is identified by the student. Further details of clinical requirements for each concentration area are provided to students in The Passan School of Nursing Graduate Program Student Handbook.
RN to-MSN Program

Purpose
This distance education program is designed for the experienced, practicing registered nurse with a nursing-focused associate’s degree (AAN or ASN) who plans to earn a career-enhancing advanced nursing degree to the master’s level. The curriculum starts with two bridge courses totaling 10 credit hours, which brings the student to the baccalaureate level of study. * A pass-through bachelor’s degree in nursing is not granted as part of this program. After completing these bridge courses, students continue in completing a concentration for completion of the Master of Science in Nursing degree of their choice (see Master of Science in Nursing section of the Bulletin). Graduates are eligible for national board certification in their respective concentration at the end of the program.

Admission Requirements
See the Master of Science with Major in Nursing admission requirements above.

Curriculum
Courses are completed in 8 week or 12 week sessions based upon the master’s concentration chosen. The two bridge courses include:

- NSG 290 Transition to Baccalaureate Nursing - 7 credits (6 Credits Theory; 1 Credit Clinical)
- NSG 347 Leadership and Management Practicum - 3 credits (2 Credits Theory; 1 Credit Clinical)

Degree Requirements
The total number of credits required for completion of the RN to-MSN degree is based upon the concentration chosen (see Master of Science in Nursing section of the bulletin). The total credits range between 49-52.

RN to-MSN students enter this program as graduate students of the university and follow the policies of the Passan School of Nursing graduate nursing program.
NURSING EDUCATION

Purpose

This program is designed for professional nurses who have earned a Master’s or Doctoral Degree in Nursing and seek further education in advanced nursing practice. Concentrations offered are the Adult-Gerontology Primary Care and Psychiatric/Mental Health Nurse Practitioner; Adult-Gerontology and Psychiatric/Mental Health Clinical Nurse Specialist; Nurse Executive; and Nursing Education. No degree will be awarded.

Admission Requirements

• Master’s or Doctoral degree with a major in nursing from a program approved by either The National League for Nursing (NLN) or The Commission on Collegiate Nursing Education (CCNE.)
• GPA 3.0 on a 4.0 scale
• Current Registered nurse license.
• Two years of recent professional experience in nursing
• Personal interview
• Completed application for admission to graduate Studies, including academic transcripts
• Two letters of reference from health care professionals attesting to the candidate’s clinical expertise
• Statement of professional goals

NURSING EDUCATION STUDENT LEARNING OUTCOMES

Students in the Nursing Education program at Wilkes University will:

1. Analyze theoretical and evidence-based research specific to nursing education.
2. Develop expertise in education assessment, teaching/learning strategies, evaluation and testing.
3. Design a curriculum that addresses a dynamic complex nursing environment.
4. Demonstrate leadership abilities through classroom and clinical teaching in a variety of community agencies.

</tr>
</tbody>
</table>

Students must take N 533 or have completed a 3-credit advanced pharmacotherapeutics course within the past five years.

Required number of credits for each concentration is at the discretion of the Director of Graduate Nursing Programs.

RESIDENCY REQUIREMENTS

An on-site residency is required for students enrolled in NSG500, Advanced Health Assessment, in order to demonstrate advanced physical assessment skills. In addition, students in the following clinical courses are required to complete an on-site residency. During residency, direct supervision and evaluation of the student will be completed by nurse practitioner faculty at their designated clinical practice sites.

• NSG 506 – Advanced Practice in Adult-Gerontology Clinical I
• NSG 515 – Advanced Practice in Adult-Gerontology Clinical II
• NSG 535 – Advanced Practice in Psychiatric Mental Health Nursing I
• NSG 536 – Advanced Practice in Psychiatric Mental Health Nursing II

Clinical Requirements

The student is responsible for arranging all clinical experiences. A preceptor from a practice setting that promotes attainment of course objectives is identified by the student. The preceptor must have a graduate degree in the appropriate healthcare discipline. Approval of clinical preceptors is granted by Graduate Nursing faculty after completion of a comprehensive vetting process.

It is the student’s responsibility to meet any agency requirements related to the practicum experience that exceed those required by the School of Nursing (OSHA, HIPAA, training). Oversight of compliance occurs prior to the beginning of the clinical practice experience. Students are required to utilize the web based program for managing the clinical requirements. Students begin completion of clinical hours after approval is granted by Graduate Nursing faculty. Oversight of the practice experience is conducted by the Graduate Nursing clinical faculty.
State Requirements for Online/Distance Education

Authorization requirements for online/distance education vary by state. Wilkes University is currently in the process of pursuing individual state authorizations and approvals, as necessary, for its online course delivery. Wilkes is not required to have state authorization in all 50 states and may choose not to enroll students from states where we are not authorized. Any questions related to the university’s approval to offer graduate nursing programs in a specific state should be forwarded to our Graduate Admissions team.

Note: Since online/distance education requirements vary by state, online students who change their residency to a state in which Wilkes University is not approved to operate may be unable to remain enrolled at Wilkes University or may have their academic progression delayed until proper approvals may be obtained.
POST GRADUATE/APRN CERTIFICATE
Post Graduate/APRN Certification

Purpose
This distance education program is designed for the experienced registered nurse who has earned a master’s or doctoral degree in Nursing and seeks to expand their education in a new specialty area. Certificate programs are offered in all concentrations available in the Master of Science in Nursing degree program. Graduates of our accredited online certificate programs are eligible to sit for national certification exams. A review of official transcripts will determine a student’s course of study. No degree is awarded.

Students admitted to the nurse practitioner program who have previously taken an Advanced Pharmacology course are advised to contact their State Board of Nursing to determine if their Pharmacology course meets the criteria set by State Board for length of time that is allowed from taking the course to the date of applying for prescriptive privileges.

Admission Requirements

Regular Acceptance
- Master of Science in Nursing or Doctoral degree in Nursing
- GPA of 3.0 or higher from master’s-degree-granting institution which is programmatically (ACEN, NLNAC, CCNE) accredited. Students who have graduated from a non-programmatically accredited institution and meet all other admission requirements will be evaluated on a case by case basis. Admission is not guaranteed.
- RN License; and Advanced Practice Registered Nurse (APRN) license and national board certification, as appropriate
- Completed application
- Resume
- Minimum one year of clinical experience
- Official transcript from degree-granting institution

Provisional Acceptance (collateral) *
- Master of Science in Nursing or Doctoral degree in Nursing
- GPA of 3.0 or higher from master’s-degree-granting institution
- Students must have graduated from a programatically (ACEN, NLNAC, CCNE) accredited institution within one year prior to receiving programmatic accreditation. Students who have graduated from a non-programmatically accredited institution and meet all other admission requirements will be evaluated on a case by case basis. Admission is not guaranteed.
- RN License; and Advanced Practice Registered Nurse (APRN) license and national board certification, as appropriate
- Completed application
- Resume
- Minimum one year of clinical experience
- Unofficial transcript from degree-granting institution*

*Official transcripts from all schools attended due prior to start of second course.

Conditional Acceptance (academic) ** (NP students are not admitted under conditional acceptance)
- Master of Science in Nursing or Doctoral degree in Nursing
- GPA of 2.50-2.99 from master’s-degree-granting institution which is programmatically (ACEN, NLNAC, CCNE) accredited. Students who have graduated from a non-programmatically accredited institution and meet all other admission requirements will be evaluated on a case by case basis. Admission is not guaranteed.
- RN License; and Advanced Practice Registered Nurse (APRN) license and national board certification, as appropriate
- Completed application
- Resume
- Minimum one year of clinical experience
- Official transcript from degree granting institution
- Letter of Intent addressing reason for pursuing post-graduate certificate, reason for GPA less than 3.0 in graduate studies,
- Two letters of recommendation (letters of recommendation must be from supervisors and/or those who can attest to candidate’s ability to be successful in graduate nursing education)

** Admitted students must achieve a cumulative 3.0 GPA in first two courses to move forward in program of study

Student outcomes for each of the following concentrations can be found in the Master of Science in Nursing section of this handbook. Students in the Post Graduate/APRN Certificate programs have an option to complete (1) billable credit of national certification preparation in NSG 590: Scholarly Review.

The Curriculum

CONCENTRATIONS
Adult –Gerontology Primary Care Nurse Practitioner (25 Credits)
All courses are 12 weeks in length.

#### Residency Requirements

An on-site residency is required for nurse practitioner students only, who are enrolled in NSG 500, Advanced Health Assessment, in order to demonstrate advanced physical assessment skills. In addition, nurse practitioner students in the following clinical courses may be required to complete an on-site residency, based upon the location of the clinical practice site. During residency, direct supervision and evaluation of the student will be completed by nurse practitioner clinical faculty at his/her designated clinical practice sites. Each course syllabus dictates the terms of the specific course residency:

- NSG 506 – Advanced Practice in Adult-Gerontology Clinical I
- NSG 515 – Advanced Practice in Adult-Gerontology Clinical II
- NSG 535 – Advanced Practice in Psychiatric Mental Health Nursing I
- NSG 536 – Advanced Practice in Psychiatric Mental Health Nursing II
Clinical Requirements

The student is responsible for arranging all clinical experiences. A preceptor from a practice setting that promotes attainment of course objectives is identified by the student. Further details of clinical requirements for each concentration area are provided to students in the *The Passan School of Nursing GraduateProgram Student Handbook*.

Accelerated tracks are available in the MS-DNP, MSN (excluding NP concentrations), and RN to MSN (after successful completion of the bridge courses) programs. Further details are available in *The Passan School of Nursing GraduateProgram Student Handbook*.

Nursing.................................................................................................................................16
RN-MS PROGRAM

RN to MSN Program

Purpose

This accelerated program is designed for the experienced, practicing registered nurse who plans to continue nursing studies through the master’s level and does not hold a baccalaureate degree. Adjustments of the undergraduate requirements permit rapid progress into the graduate level. The curriculum for the Master of Science in Nursing program remains intact and prepares the registered nurse for advancing nursing practice. Program plans are individualized for each student. The total time to completion of the program is dependent on the number of transfer credits, as well as the number of credits taken in any semester.

Regular admission to Wilkes University is necessary and will include evaluation of transfer credits.

Admission Requirements

• A nursing degree with a GPA of 3.0 or higher on a 4.0 scale
• Licensure as a Registered Nurse.
• A completed admission application
• One year of clinical experience
• Official transcripts from all schools attended

State Requirements for Online/Distance Education

Authorization requirements for online/distance education vary by state. Wilkes University is currently in the process of pursuing individual state authorizations and approvals, as necessary, for its online course delivery. Wilkes is not required to have state authorization in all 50 states and may choose not to enroll students from states where we are not authorized. Any questions related to the university’s approval to offer graduate nursing programs in a specific state should be forwarded to our Graduate Admissions team.

Please note: Since online/distance education requirements vary by state, online students who change their residency to a state in which Wilkes University is not approved to operate may be unable to remain enrolled at Wilkes University or may have their academic progression delayed until proper approvals may be obtained.

Degree Requirements

The total number of credits to complete the RN to MSN program varies depending on the courses completed prior to admission. A program plan will be designed for you upon admission.

Nursing ............................................................................................................................................. 16
NSG. NURSING

NSG-608 A and B. SCHOLARLY PROJECT

Credits: 6
Completed over the last 2 semesters of the DNP program.

In this capstone course, the student, under the guidance of a selected faculty member, will analyze and synthesize theoretical and empirical research relevant to a clinical practice issue. Students will design a comprehensive and holistic approach to this problem using evidence-based presentation. This course provides opportunity for additional clinical practice needed for the development of advanced nursing practice competencies. Required clinical hours for DNP clinical competency are dependent upon educational / clinical background. This could vary from 500 to 1000 hours.

Pre-Requisites
NSG-600, NSG-601, NSG-602, NSG-603, NSG-604, NSG-605, NSG-606 and NSG-607

Co-Requisites
At the discretion of the Chair, Graduate Nursing Program.

NSG-290. TRANSITION TO BACCALAUREATE NURSING
Credits: 7 (6 credits theory, 1 credit clinical)
This course is designed to facilitate the transition of RN students from other educational routes to baccalaureate education and professional nursing practice. The course focuses on the integration of knowledge, skills, and attitudes in the development of the professional role to enhance quality outcomes for individuals, families, and populations across all healthcare settings and in complex healthcare environments.

NSG-347. LEADERSHIP AND MANAGEMENT PRACTICUM
Credits: 3 (2 credits theory, 1 credit clinical)
This course prepares the RN to BSN or RN to MSN student for professional role development in emerging health care delivery systems. The student synthesizes knowledge from previous nursing and supportive courses to manage care in an area of clinical practice consistent with career goals.

NSG-500. ADVANCED HEALTH ASSESSMENT
Credits: 3
This course presents an overview of the full and comprehensive health assessment of patients across the life span. Emphasis on multiple aspects of assessment including physical, functional, and mental health assessment along with transcultural variations, will prepare the student for advanced nursing practice. (Nurse Practitioner students are required to complete an onsite residency.)

NSG-501. THEORETICAL FOUNDATIONS OF NURSING SCIENCE
Credits: 3
This course emphasizes the systematic process of theory development in nursing. The role of traditional science in relation to other ways of knowing is explored. Students will describe, analyze, and evaluate current theories of nursing. The relationship of research and practice to theory is discussed.

NSG-502. ADVANCED NURSING RESEARCH
Credits: 3
This course builds on knowledge and skills developed in undergraduate research and statistics courses. Skills in the analysis and evaluation of nursing research are further developed. Students analyze the contributions of the empirical approach to the development of nursing science. Selected research designs and methodologies which are used to advance nursing knowledge are examined. Students are given the opportunity to critique and synthesize current research for its application to an identified problem in nursing practice.

NSG-504. ADVANCED ROLE DEVELOPMENT IN NURSING
Credits: 3
This course examines the development of roles for advancing nursing practice. The historical development of these roles along with current scope of practice in a variety of clinical settings will be explored. Focus will be placed on the legal, historical, political, social, and ethical aspects of advanced practice nursing.

NSG-505. HEALTH POLICY AND POLITICS FOR ADVANCING NURSING PRACTICE
Credits: 3
Complex and continuous changes in healthcare environments require that nursing professionals contribute to care delivery systems for improving population health outcomes. This course focuses on the role of the nurse advancing nursing practice through developing health policy, politics, and advocacy systems. Approaches to health issues for shaping policy on a local, state and federal level are analyzed in accordance with policy making processes, politics in healthcare and government, healthcare economics, and ethical frameworks.

NSG-506. ADVANCED PRACTICE IN ADULT GERONTOLOGY CLINICAL I
Credits: 3
Advance practice nursing students integrate theories from nursing and other sciences that are evidence-based and sensitive to cultural and ethical issues. Promoting quality outcomes in the adult-gerontology population across the spectrum of young adults, adults, and older adults is the focus of this clinical experience in primary care settings. Advanced health assessment, diagnostic reasoning, and development of therapeutic interventions for self-limiting conditions occurs. Opportunities for interdisciplinary experience and collaborative practice are provided. The seminar component of the course is designed to develop critical-thinking and clinical decision-making skills through case presentations. (Seminar, Residency and 250 clinical practice hours).

Pre-Requisites
NSG-550
NSG-515. ADVANCED PRACTICE IN ADULT GERONTOLOGY CLINICAL II
Credits: 3
Advanced Practice nursing students integrate theories from nursing and other sciences that are evidence-based and sensitive to cultural and ethical issues. Promoting quality outcomes in the adult and gerontology population across the spectrum of young adults, adults, and older adults is the focus of this clinical experience in primary care settings. Advanced health assessment, diagnostic reasoning and development of therapeutic interventions for complex health conditions occurs. Opportunities for interdisciplinary experience and collaborative practice are provided. The seminar component of the course is designed to develop critical-thinking and clinical decision-making skills through case presentations. (Seminar, Residency and 250 clinical practice hours)

Pre-Requisites
NSG-550

NSG-526. CLINICAL MODALITIES IN ADVANCED PSYCHIATRIC MENTAL HEALTH NURSING PRACTICE
Credits: 3
This course provides a foundation in the major systems of therapy for individuals and groups used in advanced psychiatric mental health nursing and other disciplines engaged in mental health practice. Focus will be on therapeutic modalities such as brief psychotherapy, group processes and practices, milieu therapy and crisis intervention as they relate to advanced nursing practice in mental health.

Pre-Requisites
NSG-550, NSG-552

NSG-527. PSYCHOPATHOLOGY, THEORIES, AND ADVANCED CLINICAL MODALITIES
Credits: 3
This course focuses on the most frequently observed pathologies in psychiatry and mental health, the various conceptual models and theories related to the practice of psychiatric mental health nursing, and the most advanced clinical modalities congruent with the analysis of the best evidence.

Pre-Requisites
NSG-550, NSG-552

NSG-530. ADVANCED PATHOPHYSIOLOGY
Credits: 3
This course provides an overview of the normal physiologic and pathologic mechanisms of disease and serves as one primary component of the foundation for clinical assessment, decision-making, and management. The course will prepare the advanced practice nurse for interpreting changes in normal function that results in symptoms indicative of illness in patients across the lifespan.

NSG-533. ADVANCED PHARMACOLOGY
Credits: 3
This course provides the basic principles of pharmacodynamics, pharmacokinetics, and pharmacotherapeutics for broad categories of drugs. Purpose of action, common interactions and contraindications of major drug categories are highlighted. Case studies are integrated to provide students the opportunity to demonstrate application of pharmacological theory in advancing nursing practice.

NSG-535. ADVANCED PRACTICE IN PSYCHIATRIC/MENTAL HEALTH NURSING I
Credits: 3
This foundational clinical course introduces students to advanced practice psychiatric nursing in a variety of mental health settings. Students acquire skills in completing comprehensive mental health assessments. Students identify and apply concepts, theories, and principles to the practice of individual, family, and group psychotherapy, with emphasis on process dynamics. Considerations and challenges in providing psychotherapy to culturally diverse individuals, families, and groups are explored and discussed. Skills are gained in assessing psychopathological symptoms across the lifespan and in implementing planned interventions. Students integrate theory and practice of the advanced practice psychiatric nurse in a supervised clinical practicum (Total: Residency and 250 practice hours).

Pre-Requisites
NSG-550, NSG-552

NSG-536. ADVANCED PRACTICE IN PSYCHIATRIC/MENTAL HEALTH NURSING II
Credits: 3
This clinical course focuses on refining assessment, diagnosis, and pharmacological and psychosocial management of individuals of all ages with mental illness. Individual, family, and group psychotherapies are refined. Students gain skills in identifying individuals/populations at risk for mental illness and primary prevention in mental health. Mental health needs of culturally diverse, rural, and underserved populations are explored. Leadership and advocacy roles of the advanced practice psychiatric nurse as an agent of healthcare policy change are emphasized. Students integrate theory and practice of the advanced practice psychiatric nurse in a supervised clinical practicum (Total: Residency and 250 practice hours).

Pre-Requisites
NSG-550, NSG-552

NSG-540. THE NURSING CURRICULUM: DEVELOPMENT AND IMPLEMENTATION
Credits: 3
This course provides a foundation to understand the core of knowledge of educational processes which undergird nursing education. Competencies needed by nurse educators are explored; principles, philosophies and theories of learning, curriculum development, professional socialization, and accreditation as well as legal requirements for nursing programs are discussed. The relationship between curricular design and accreditation standards is described.

NSG-541. TEACHING METHODOLOGIES AND STRATEGIES IN NURSING
Credits: 3
Building on knowledge of curriculum and learning, approaches to classroom and clinical teaching are explored. Learning outcomes as they relate to instructional teaching/learning interventions are developed. The use of instructional technology is included.

NSG-542. EVALUATION IN NURSING EDUCATION
Credits: 3
Evaluation methodologies from selection of applicants through the meeting of graduation requirements will be explored. Testing strategies and test reliability will be discussed. Classroom and clinical achievement will be included. Faculty evaluation as well as student measurement will be discussed.
Course Descriptions

NSG-544. CLASSROOM PRACTICUM IN NURSING EDUCATION
Credits: 3
This practicum provides the student an opportunity to actively participate in a faculty or staff development role within an educational setting. The student is required to obtain a mentor who will provide classroom learning experiences. (100 practicum hours required).

Pre-Requisites
NSG-540, NSG-541, NSG-542

NSG-545. CLINICAL PRACTICUM IN NURSING EDUCATION
Credits: 3
This practicum provides the student an opportunity to actively participate in a faculty or staff development role within an educational setting. The student is required to obtain a mentor who will provide teaching learning experiences within a clinical environment. (100 practicum hours required).

Pre-Requisites
NSG-544

NSG-550. DIAGNOSTIC REASONING FOR NURSE PRACTITIONERS
Credits: 2
The nurse practitioner will develop processes for formulating differential diagnoses of acute and chronic physical and mental illnesses in the primary care setting across the life span. A case-study approach is integrated to prepare students for management of health status of patients through the implementation of strategies specific to the synthesis of data from multiple sources that promote quality of care outcomes for patients.

Pre-Requisites
NSG-500, NSG-530, NSG-533.

NSG-551. MENTAL HEALTH PERSPECTIVES OF CULTURALLY DIVERSE, RURAL, AND UNDERSERVED POPULATIONS
Credits: 2
This course is designed to examine the mental health perspectives of culturally diverse, rural, and underserved populations. Topics include, but are not limited to: cultural competence, cultural bound syndromes, cultural assessment, challenges faced by PMH-NPs in the mental health care of minorities, immigrants, refugees, and other underserved populations, and strategies influencing mental health care and services in rural settings. In addition, this course will examine how health care reform will affect diverse individuals with mental illnesses. Knowledge gained from this course can be integrated into clinical practice.

Pre-Requisites
NSG-550, NSG-560, NSG-554.

NSG-552. PSYCHOPHARMACOLOGY
Credits: 2
This course is designed to assist the P-MH nurse practitioner to develop competence in prescribing and monitoring psychopharmacological agents used in the treatment of common psychiatric-mental health disorders across the lifespan. This course will examine the major classes of psychopharmacological agents on neurobiological function with a particular emphasis on the clinical management of target psychiatric symptoms. Drugs of abuse, side effects, issues of polypharmacy, and management of advanced practice prescriptive privileges are also explored.

Pre-Requisites
NSG-533

NSG-553. ADULT HEALTH PERSPECTIVES OF CULTURALLY DIVERSE, RURAL, AND UNDERSERVED POPULATIONS
Credits: 2
The course is designed to introduce the advanced practice nursing student to the issues of culturally diverse, rural and underserved populations. The theory can be integrated into clinical practice for adult-gerontology patients and families to promote understanding of differences and issues that impact comprehensive planning of health care services.

NSG-554. NURSE PRACTITIONERS IN PRIMARY CARE I
Credits: 3
This course is designed to prepare primary care nurse practitioner students to provide primary health care to the adult and older adult population during wellness and acute/episodic illness. The course integrates nursing theories that are evidence-based with health assessment and diagnostic reasoning of acute/episodic primary care health problems. Health promotion, protection and disease prevention interventions are provided with consideration of culturally diverse populations.

Pre-Requisites
NSG-550

NSG-555. NURSE PRACTITIONERS IN PRIMARY CARE II
Credits: 3
This course is designed to prepare primary care nurse practitioner students to provide chronic primary health care to the adult and older adult population. The course integrates nursing theories that are evidence-based with health assessment and diagnostic reasoning of chronic, primary health care problems. Health promotion, protection and disease prevention interventions are provided with consideration of culturally diverse populations.

Pre-Requisites
NSG-550

NSG-556. HEALTHCARE OPERATIONS FOR THE NURSE EXECUTIVE
Credits: 3
This course prepares the nursing executive by examining the multiple administrative areas necessary for success at an executive level. The differences between US health care policy and the health care policies of various other countries will be explored. An analysis of select health care administration topics through the use of both individual and collaborative learning will prepare students to succeed in an ever-expanding, constantly changing health care environment.

NSG-561. ORGANIZATIONAL LEADERSHIP FOR THE NURSE EXECUTIVE
Credits: 3
This course examines the executive level leadership skills necessary to excel within the rapidly changing health care environment of the future. Emphasis is placed on understanding how the individualized leadership styles of today’s health care executives shape the culture and vision of the organizations of tomorrow. This course also provides an in-depth analysis of how building an autonomous, ethical, and diverse leadership team and workforce assists the executive in developing solutions to complex organizational problems.

Pre-Requisites
NSG-560
Co-Requisites
Taken concurrently with NSG 563 for the first eight weeks.
NSG-562. ADVANCED LEADERSHIP TOPICS FOR THE NURSE EXECUTIVE  
Credits: 3  
This course synthesizes previously established theory and skill sets to explore select advanced topics in healthcare leadership. The issues explored will assist the executive nurse in leading a healthcare organization during times of crisis or conflict as well as prosperity. Emphasis is placed on understanding health care as an intricate, dynamic organism which is in continual need of attention.

Pre-Requisites  
NSG-561

Co-Requisites  
Taken concurrently with NSG 564 for the first eight weeks.

NSG-563. NURSE EXECUTIVE PRACTICUM I  
Credits: 3  
This practicum course synthesizes previously established theory and skill sets to further develop the student’s administrative abilities. By applying theories from other sciences and utilizing interdisciplinary experiences and collaborative opportunities, the student will further enhance the skills necessary to excel as a health care executive in an evidence-based, culturally sensitive environment. The seminar component of this course is designed to supplement previous theoretical applications and stimulate critical-thinking and decision-making. (250 clinical hours)

Pre-Requisites  
NSG-560

Co-Requisites  
This 16-week course is taken concurrently with NSG 561 for the first eight weeks.

NSG-564. NURSE EXECUTIVE PRACTICUM II  
Credits: 3  
This practicum course synthesizes previously established theory and skill sets to further develop the student’s leadership abilities. By applying theories from other sciences and utilizing interdisciplinary experiences and collaborative opportunities, the student will further enhance the skills necessary to excel as a health care executive in an evidence-based, culturally sensitive environment. The completion of an organizational needs assessment within this course is designed to supplement previous theoretical applications and stimulate critical-thinking and decision-making. (250 clinical hours)

Pre-Requisites  
NSG-561

Co-Requisites  
This 16-week course is taken concurrently with NSG 562 for the first eight weeks.

NSG-565. FOUNDATIONS OF NURSING INFORMATICS  
Credits: 3  
Students are introduced to the role, scope, and standards which form the foundation for nursing informatics practice. The theoretical basis of the course incorporates both knowledge of nursing practice and health informatics. Students will explore the framework of data, information, knowledge, and wisdom to data application in healthcare for improving patient care.

Pre-Requisites  
NSG-566, NSG-567, NSG-568

Co-Requisites  
Completion of Graduate Nursing Core and Concentration courses.

NSG-566. DATA MANAGEMENT IN HEALTHCARE  
Credits: 3  
Database application in nursing and healthcare systems will be examined in this course. Students will learn database design, implementation, and management to support clinical decision making in nursing and healthcare project design and management.

NSG-567. NURSING INFORMATICS LEADERSHIP IN HEALTHCARE SYSTEMS AND PROJECT DESIGNS  
Credits: 3  
In this course students will explore the role of the informatics nurse specialist as nurse leader who combines knowledge of nursing practice and technology on healthcare teams. Theory and skills on performing system analysis and implementation of the systems design life cycle in project management.

NSG-568. NURSING INFORMATICS PRACTICUM I  
Credits: 3  
This course requires students to perform in the role of an informatics nurse specialist in a healthcare organization. In collaboration with a preceptor students will apply nursing informatics theory and models in developing a project which improves the quality of nursing care delivered in a healthcare setting. (Clinical Practicum Hours: 100)

Pre-Requisites  
NSG-565, NSG-566, NSG-567

NSG-569. NURSING INFORMATICS PRACTICUM II  
Credits: 3  
This course requires students to perform in the role of an informatics nurse specialist in a healthcare organization. In collaboration with a preceptor students will apply nursing informatics theory and models to implement the project planned in NSG 568, which improves the quality of nursing care delivered in a healthcare setting. (Clinical Practicum Hours: 100)

Pre-Requisites  
NSG-568

NSG-590. SCHOLARLY REVIEW  
Credits: 3 (or 1 credit of national board certification preparation)  
In this course the student will synthesize and review issues relevant to their specialty clinical practice. This course is designed as a review of the required masters level core nursing courses and specialty focused curriculum for advanced nursing practice. This course will provide an overview of both the required core nursing courses as well as each specific specialty course.

Students in the post graduate/APRN certificate programs can take this course for 1 credit of national board certification preparation.

Pre-Requisites  
Completion of Graduate Nursing Core and Concentration courses.

NSG-600. NURSING INFORMATICS  
Credits: 3  
Students use information systems to analyze patient data, perform research, and evaluate project outcomes. The course will include applications in computer-based patient records, data-base management systems, e-health, distance education, and research. Legal and ethical issues associated with computer use are examined.
NSG-601. BIOSTATISTICS
Credits: 3
Statistics is the science whereby inferences are made about specific random phenomena on the basis of relatively limited sample material. It is widely used in biological, health, and social sciences, etc. Biostatistics is the branch of applied statistics that applies statistical methods to medical and biological problems.

NSG-602. ETHICAL PRINCIPLES FOR ADVANCED NURSING PRACTICE
Credits: 3
This course will analyze a broad range of ethical principles that impact the health professions, from euthanasia and abortion to informed consent and behavior control. Examination of the ethical, moral, and legal obligations within selected decision-making frameworks will be completed. Strategies to assist in the resolution of ethical dilemmas will be developed through the application of selected theories and concepts. Interaction between ethical, legal, and political events that affect advanced practice nursing will be explored.

NSG-603. APPLICATION OF NURSING RESEARCH
Credits: 3
This course analyzes research methods to appraise research literature for application to practice and evaluate practice outcomes in varied settings. Application of relevant research findings are used to generate practice guidelines, design evidence based interventions and examine patterns and predict outcomes. The collaborative role of the DNP in research is discussed.

Pre-Requisites
NSG-601

NSG-604. EPIDEMIOLOGY AND ENVIRONMENTAL HEALTH
Credits: 3
The purpose of this course is to examine the concepts and methods of epidemiological and environmental health analysis and their application to advanced nursing practice. The student will be able to integrate this knowledge into nursing practice in a variety of health care settings through research, program development, health policy and advocacy.

NSG-605. COLLABORATION IN HEALTH CARE DELIVERY
Credits: 3
This course focused on the knowledge and skills needed to promote collaboration with all members of the interdisciplinary health care team. Content will include exploration of the design, implementation, and evaluation of programs and policies for effective health care delivery.

NSG-606. DIVERSITY AND SOCIAL ISSUES
Credits: 3
This course focuses on cultural and social issues affecting members of a global society. A critical appraisal of health care disparities is emphasized and strategies for quality improvement are analyzed.

NSG-607. LEADERSHIP IN ADVANCED NURSING PRACTICE
Credits: 3
This course provides an opportunity for students to analyze theories of leadership and management as they relate to the multifaceted role in advanced nursing practice. The health care environment, with its ongoing changes in organization and financing, is impacted upon by changes in health policy, regulatory processes, and quality measures. The understanding of this content will prepare the student to provide quality cost-effective care, to participate in the design and implementation of care in a variety of health care systems, and to assume a leadership role in the managing of human, fiscal, and physical care resources.

NSG-609. DNP PROGRAM PRACTICUM I
Credits: 2
This course provides students pursuing a Doctor of Nursing Practice degree the opportunity for achieving additional clinical hours as required for meeting program outcomes. The focus will be on preparing students as experts in a specific area for advancing nursing practice, for the final scholarly project. The student will develop a PICO statement for the scholarly project which will guide this intense practice immersion experience. The student will collaborate with an identified clinical mentor. (Elective; Clinical hours total: 150 hours/ 8 weeks/2 credits)

Pre-Requisites
NSG-600, NSG-601, NSG-602, NSG-603
