ENTREPRENEURSHIP

Entrepreneurship Major

Coordinator: Dr. Morgan Clevenger

Total minimum number of credits required for a major in Entrepreneurship leading to the Bachelor of Business Administration degree – 122

Total minimum number of credits required for a minor in Entrepreneurship – 18

Entrepreneurship creates value and improves society’s standard of living. It is an integrating discipline that draws on knowledge and skills developed in a variety of areas. Entrepreneurial endeavors are successful when they identify opportunities, assess those opportunities, and take action to pursue the opportunities. Students who are pursuing the Bachelor of Business Administration in Entrepreneurship will understand the motivations, behaviors, and strategies necessary to create, implement, and sustain new ideas and ventures. The Entrepreneurship program is closely affiliated with the Allan P. Kirby Center for Free Enterprise and Entrepreneurship and the Small Business Development Center. Both offer academic and experiential opportunities under the direction of senior professional staff.

Change is an accepted constant in today’s world. And change, whether it is gradual or radical, is a rich source of opportunity. The Entrepreneurship major and minor will prepare students to recognize and act upon opportunities and meet the challenges that lie ahead.

The entrepreneurship curriculum blends the traditional components of a management education with the study of those content, skill, and sensitivity areas that uniquely define entrepreneurship. Through a combination of academic and clinical experiences, students will develop an appreciation and understanding of the entrepreneurial process. The Entrepreneurship major builds upon the knowledge and experience from courses in the Personal and Professional Development Series, the Sidhu Foundations courses, and the Sidhu Undergraduate Core Courses.

The Entrepreneurship major requires an additional 27 credits, including:
